PRECINCT

The project has received funding from the European Union's HORIZON 2020 research and innovation program under Grant Agreement No 101021668

What's PRECINCT about

Objectives

PRECINCT aims to connect private and public CI (Critical Infrastructure) stakeholders in a geographical area to a common cyber-physical security management approach which will yield a protected territory for citizens and infrastructures. The ultimate ambition is that PRECINCT can be replicated efficiently and effectively for a safer Europe.

Expected Impact

The involvement of 11 CIs representing the transport, water, energy and ICT sectors and 2 law enforcement agencies as active project partners, covering different type of CIs (private/public), size and geographical distribution. In 4 Living Labs and 3 Demonstrators more than 20 CIs and first responders, national authorities will participate creating a critical mass for adoption and providing evidence of what is working we, and which components provide clear advantages.

Consortium Partners

PRECINCT Consortium

The map shows the geographical distribution of consortium partners across Europe, with markers indicating their locations in various countries.

Partners: Vias, vltm, KU LEUVEN, RDS, montimage, ITEL, tecnalia, Kconnecta, and many others.
